

*This Register is confirmation that the persons named below
have successfully completed by participation and written test
the PCCE Training Course*

Fire Detection and Alarm Systems **2-day Service Provider Course** (Course Ref F3)

A training course of two day duration encompassing the duties and procedures for Service Providers as set out in the Irish National Standard I.S. 3218: 2013. The course included both theoretical and practical aspects each of which were subject to written assessment with a minimum pass level of 60%.

It is intended that the successful completion of this course is a contributory element to the assessment of competence of the participant to undertake work of this nature.

The Award is for the Individual and not the Company or Organisation. It remains with the individual even where their employment conditions change. The Company/Organisation may not reference this award if the individual is no longer employed by them
